

**Southwest Kansas Library System
Library Development Standards Program
Level I Major Service Center
Accreditation Application**

The Library Development Accreditation Program is intended to encourage and recognize attainment of the standards for public library service in the Southwest Kansas Library System. ***All fully participating member public libraries*** are invited to participate in the accreditation program. Accreditation will be one of the requirements for eligibility for a Library Development grant.

The library may choose to apply for accreditation at the level of service that the library determines to be appropriate for its community and is relevant to its population. Standards are intended to apply to the main library location in libraries operating branch libraries.

Libraries may request a waiver of any standard. ***Requests for waivers will be considered by the System Director. Decisions may be appealed to the Library Development Accreditation Committee of the Southwest Kansas Library System.***

If a library board considers any standard inappropriate for its local community, it may propose a written plan for alternative approaches to that element of library service. ***Any alternative service plan proposal is subject to review and approval by the Library Development Accreditation Committee.***

Applications for accreditation will be accepted from November 1 -30 and notification of accreditation will be given by January 1. Accreditation will be valid for two years. Any library seeking to apply for a different level of accreditation when their accreditation expires must notify SWKLS one year in advance. Libraries receiving accreditation will be recognized at Spring Assembly.
